S I R:

In accordance with 37 C.F.R. 1.56, applicant wishes to call the attention of attention of the Examiner to the references listed on enclosed form PTO-1449 which were cited in the instant specification and in the International Search Report issued by the European Patent Office with regard to the corresponding International patent application No. PCT/EP2004/011914, respectively. Applicant does not admit that any of the cited documents constitutes prior art against the pending application.

ALL REFERENCES CONSIDERED EXCEPT WHERE LINED THROUGH. /WA/

Docket No.: SCHUBBACH  
Appl. No.: 10/595,481

Copies of these references are submitted herewith along with form PTO-1449. The Examiner is requested to initial the attached form PTO-1449 and to return a copy of the initialed document to the undersigned as an indication that the attached references have been considered and made of record.

- ☐ This Information Disclosure Statement is filed within three months of the filing date of a national application other than a continued prosecution application under 1.53(d), so that no fee under 37 C.F.R. §1.97 is due.
- ☐ This Information Disclosure Statement is filed within three months of the date of entry of the national stage as set forth in 1.491 in an international application, so that no fee under 37 C.F.R. §1.97 is due.
- ☒ This Information Disclosure Statement is filed before the mailing of a first Office Action on the merits, so that no fee under 37 C.F.R. §1.97 is due.
- ☐ This Information Disclosure Statement is filed before the mailing of a first Office Action after the filing of a request for continued examination under §1.114, so that no fee under 37 C.F.R. §1.97 is due.
- ☐ This Information Disclosure Statement is filed after the issuance of a first office but before issuance of a final action under §1.113, or a notice of allowance under §1.311.
- ☐ This Information Disclosure Statement is submitted after the mailing of a final action or a notice of allowance, but before payment of the issue fee.
- ☐ The undersigned submits the following statement requesting consideration of this statement:  
The undersigned hereby states:
  - ☐ That each item of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the information disclosure statement;
  - ☐ That no item of information contained in the information disclosure statement was cited in a communication from a foreign patent office in a counterpart

In order to satisfy the requirement under 37 C.F.R. §1.98(a)(3) for a concise explanation of the relevance of each item of information, applicant herewith submits a copy of the International Search Report. In addition, applicant notes with respect to any information that is not in English language as follows:

German Offenlegungsschrift DE 196 05 890 describes a container having walls, floor and lid formed with a coating with a surface resistance quoted as less than 1 kohm. The plastic of the walls, etc. and of the antistatic coating is high pressure polyethylene. The wall thickness is from two to five mm. The thickness of the coating is between 0.2 and 0.5 mm. The container is made by extrusion with subsequent spraying of the coatings.

German Offenlegungsschrift DE 38 44 605 A1 describes a plastic internal container (2) for pallet containers (1), having a black coloring to protect the container and the contents therein from UV radiation. Soot is added to the plastic, such as polyethylene, to produce the container.

German Offenlegungsschrift DE 41 36 766 A1 describes a container cover which is multilayered and consists of a transparent layer and at least one layer in which color material is mixed and is (nearly) opaque. Layer with color material has a strip-form break-through area in which a viewing strip of transparent plastic is arranged as filling indicator. Container cover and the viewing strip are of the same

Appl. No.: 10/595,481

thermoplastic material as the (nearly) opaque plastic of the cover with mixed-in color.

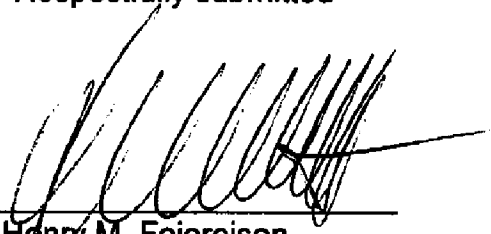

German Gebrauchsmusterschrift DE 202 06 436 U1 describes a transport and storage container for liquids, having an inner container (2) with an optic level indicator with at least one integrated viewing strip (23) of transparent plastic material which forms with the plastic material of the container walls (3-6) a homogenous connection. The Disposed on the outside of the inner container (2) is a level scale (24).

The above-identified application discloses and claims an invention patentable over this prior art.

Entry of the references above set forth into the file of the above application is believed to be in order and is respectfully requested.

Respectfully submitted
